New Drugs New Laws is the perfect way to stay current and tune up your medication and legal knowledge. This meeting focuses on the new medications approved over the last year, and also provides a comprehensive review of new and old regulations that impact pharmacy practice. These activities are designed for all pharmacists, pharmacy technicians, and student pharmacists in any practice settings and provide 8 CPE hours, including 6 hours of law CE.

New Drugs 2015

8:00 am - 10:00 am | 2 hours general CPE
Faculty: Terri L. Levien, Pharm.D., Clinical Professor, Drug Information Center, Washington State University College of Pharmacy
ACPE#: 0130-0000-15-007-L04-P&T | Activity Type: Knowledge | 2 hour (0.20 CEUs) | Disclosure: None

At the completion of this activity, pharmacists will be able to:

- Describe indications, pharmacology, adverse effects, and dosing of new drugs and dosage forms recently or soon to be approved by the FDA.
- Discuss key counseling and monitoring issues for the new drugs and the role these products may play in the participant's practice.
- Compare the new drugs against existing agents.
- Identify products approved with REMS, and describe the role of the pharmacist in the strategy.

At the completion of this activity, technicians will be able to:

- Recognize new drugs and dosage forms recently or soon to be approved by the FDA.
- Describe indications and dosing of the new products.
- Compare the new drugs against existing agents.

This session will review recently approved drugs and drugs likely to be approved in the upcoming year compared with those already available. Key points that distinguish these agents on the basis of pharmacology, efficacy, adverse event profiles, drug interactions, and dosing will be emphasized.

New Laws and Regulations 2015
